

equipping classes Fall 2017

September 24 – October 15 at 9:00am

1. The most beautiful thing you may have never seen! – *Michael Buice*

This class will focus on the gospel and its wonderful facets. Our hope is you would walk away with a better picture and biblical understanding of the gospel in your life. Our mission is to live out the gospel, so we better know what it is.

2. How to share your faith without freaking out – *Jerrod Rumley*

This class will focus on evangelism and give you tools to use. We need to reexamine evangelism and renew its importance in our body. As we live out the gospel and gather on Sundays, we want to equip you to go and share that gospel. You will walk away with practical ideas to use in your ordinary everyday Christianity.

3. When life doesn't go as planned – *Lee Boswell*

This class will help you answer one of the most difficult questions about our faith. Why does God allow evil? From a biblical and apologetic standpoint, you will discover a more robust understanding for handling the hard and hurting parts of life.

4. Getting back into the "gym" with the individual disciplines of our faith – *Jason Grant*

This class will help you work through the everyday fundamentals of our faith, practically speaking. We will look at bible study, prayer, worship, relationships, and handling conflict in particular. How does the gospel motivate you to the good works you were created for? This and much more will be examined over the four weeks.
